I thought I heard from Ralph that he and Gene will be in some BLM standing meeting until 10. NDEP is available at 9:30.

Harry and Dante are attending for EPA. I am able to attend in person but will need to leave by 12:30 to catch a 1:45 pm flight to NY. Any way we can begin the meeting at 9:30 am instead of 10? Say meet from 9:30-12:30 instead?

Hi Greg

That day and time works for BLM.

Best

Also, EPA and NDEP have confirmed June 13 10 am to 1 pm to have the OU-8 Proposed Plan scoping meeting.

After we hear from BLM we can schedule.

Gene,

Sorry you couldn't join us for the call this week.

I wanted to follow up on a couple of things that we discussed to make sure we are on the same page.

We aren't sure of the timing associated with BLM formally communicating with EPA on NPL listing for the site and what that means for federal funding going forward. We are interested to hear at your earliest convenience a more detailed description of the process whereby BLM would plan to seek funding for remedial action on the public lands portion of

the site as well as the timing and key milestones and trigger events for that process. As NDEP explained during the May 19 meeting, one of the critical pieces for the state in concurring with the NPL listing requested by EPA Region 9 was assurances regarding likelihood and timing of federal funding. NDEP acknowledges the role of Congress and federal appropriations process, but we are seeking more information timing and mechanics of how specifically the process within BLM/DOI will work for requesting and obtaining remedial action funding for work on the public lands portion of OU-8 at the Anaconda site.

Please contact me if you have any questions or would like to discuss.

Thanks,

Greg
